

## PROFILE

Games programmer with solid experience in Unity and C#, and a particular interest in game design, interactive learning systems and building my own tools. My background combines games programming with sports science, mathematics and physics — technical, analytical and didactic thinking in one. I want to use games and interactive applications not merely as entertainment, but as an effective tool for learning, training and knowledge transfer. My strengths lie in building engine tools, optimising workflows, and in designing and implementing intelligent, data-driven systems and game-specific AI algorithms — from pathfinding and state machines through behaviour trees and GOAP to wave function collapse.

## PROJECTS

### Izzy's Island Party

Local party mini-game collection for 1–4 players (SAE final project, two-person team) — built 3 of the 6 mini-games solo: Bowling Battle, Minigolf Mayhem, Swaggy Snapshots.

Unity · C# · [github.com/DJTJ9/IzzysIslandParty](https://github.com/DJTJ9/IzzysIslandParty)

### BullseyeQ

Darts training app with progress tracking, practice games and deterministic data analysis that derives concrete training recommendations.

Unity · C# · [github.com/DJTJ9/BullseyeQ](https://github.com/DJTJ9/BullseyeQ)

### Bob der Job-Bot

Job scanner with Telegram bot and web app: collects listings into a shared pool and filters them per user profile against individual criteria.

Python · Telegram · SQLite · MCP · [github.com/DJTJ9/job-scanner](https://github.com/DJTJ9/job-scanner)

### Desk-Buddy

Transparent overlay app in Unity (prototype): a small character reminds you to move at your desk, explains exercises and demonstrates them.

Unity · C#

## EXPERIENCE

### Service Associate · Tankstelle Riekenberg, Rotenburg

2021–2023

- Ran shifts independently: sales, till, car wash and maintenance without ongoing supervision.
- Daily direct customer contact while preparing the move into game development.

### Care Assistant · Rotenburger Werke, Rotenburg

2020–2021

- Supported a residential group for people with physical and intellectual disabilities — care, daily support, activities.
- Shift work in a fixed team with high responsibility for residents' safety and daily structure.

### Student Assistant · Der Werbemarkt

2014–2019

- Produced promotional items and applied vehicle/window lettering — precision work under delivery deadlines.
- Five continuous years alongside university studies, including delivery runs and client appointments.

## SKILLS

### Engine · daily

Unity C#

### Game AI · university projects

Pathfinding State Machines

Behaviour Trees GOAP

Wave Function Collapse

### Tools · daily

Git LLM-Workflows MCP

### Fundamentals · started

Unreal Engine C++

### Built with AI · in production

Python SQLite HTML/CSS

JavaScript

## LANGUAGES

German — Native

English — Fluent (C1)

## EDUCATION

Games Programming (Diploma)

SAE Institute Hamburg · 2024–04/2026

Game Design

Deutsche POP · 2023

Sports Science (no degree)

Ruhr-Universität Bochum · 2013–2019
